

## **50# Grow-Finish Basemix**

- Product Description:** Complete vitamin and mineral product for hogs destined for slaughter. Can be fed from 40# to slaughter.
- Pack Size:** 50# bag or bulk
- Use Rate:** Consult your Omega Nutrition representative
- Features:** A complete source of vitamins and both macro and microminerals necessary to maintain efficient pig growth under commercial swine production conditions.
- This premix is designed to meet the needs of modern lean genotypes while reducing the phosphorus content of the manure with the use of phytase. Feed intake and lean growth potential of modern genotypes also necessitates different inclusion rates of some vitamins and minerals.
- Purpose:** Supply necessary vitamins and minerals for market hogs.
- Performance Benefits:**
- Support normal growth and bone development in growing pigs.
  - Support normal cellular and metabolic activity.
  - Support efficient lean gain by supplying necessary vitamins and minerals for modern genotypes.
  - Supports immune system by supplying minerals and vitamins for pigs reared in stressful conditions.
  - Provides necessary supplemental vitamins and minerals in a convenient package, thus eliminating multiple small hand-adds at the mixer.
- Remarks:** Feed as recommended by your Omega Nutrition representative.
