

## **Transition 25 with Sel-Plex**

**Product Description:** Complete vitamin and mineral product for swine weighing from 25-50 pounds.

**Pack Size:** 50# bag or bulk

**Use Rate:** 25 lbs per ton

**Features:** A complete source of vitamins and both macro and microminerals necessary to maintain efficient pig growth under commercial swine production conditions.

Contains essential amino acids, vitamins, trace minerals, enzymes, and microbials. This product is used when limestone, phosphate, and salt are separate ingredients.

**Purpose:** Supply necessary vitamins and minerals for market hogs.

**Performance  
Benefits:**

- Support normal growth and bone development in growing pigs.
- Support normal cellular and metabolic activity.
- Support efficient lean gain by supplying necessary vitamins and minerals for modern genotypes.
- Supports immune system by supplying minerals and vitamins for pigs reared in stressful conditions.
- Provides necessary supplemental vitamins and minerals in a convenient package, thus eliminating multiple small hand-adds at the mixer.

**Remarks:** Feed as recommended by your Omega Nutrition representative.
